service present with a trusted telecommunications equipment or service.

tion, and an identification of those with re-
spect to which the Secretary has not imple-
mented such prohibition, if any;
(ii) an identification of any difficulties that have delayed the implementation of such prohibition by the Secretary with respect to United States embassies, such as visibility into supply chains, costs of equipment replacement, and plans for timely remediation;

(iii) information on any waivers that have been granted to an entity under subsection (d) of such section 889 for equipment, systems, or services used at United States embassies, including a justification of why each waiver was granted and any other information required pursuant to paragraph (1)(B) of such subsection; and
