

Counter-Iran and Proxy Legislation in the 118th Congress

Iran-backed Hamas' brutal October 7 attack on Israel killed over 1,200 innocent people, including Americans, and Iran and its proxies are actively attacking U.S. servicemembers and international shipping. The House Foreign Affairs Committee is working tirelessly in a bipartisan manner to provide solutions to this growing threat and weaken Iran and its proxies by cutting off their resources. The Senate must act quickly to send House-passed bills to the President's desk.
